Type of Communication: <input checked="" type="radio"/> Phone Call <input type="radio"/> Discussion <input type="radio"/> Field Trip <input type="radio"/> Conference <input type="radio"/> Other(Specify) Other:	
Communication was with: Dale Rodebaugh - 970-375-4564	Representing: Durango Herald
Topic: Water quality work in the Animas	
<p><b>General summary of the conversation:</b> Mr. Rodebaugh wanted to confirm that EPA would be in Silverton in August. I let him know that we would be, and that we would be talking about the data from last fall's sampling, possible tools available to help address water quality issues, and that the NPL is just one tool that might be used to help address contamination impacting water quality. I also reiterated that NPL will not be used unless we get community and state support for that. Mr. Rodebaugh asked a few questions:</p> <ol style="list-style-type: none"> <li>1. What reports are there and will they be available? I said no, there are none yet and that I don't know if they will be finalized and available by the time of the meeting.</li> <li>2. He also asked if there were any lawsuits involved with our work; I said no, there are none involving EPA.</li> <li>3. He asked if we have a website related to our work and the site? I told him no we don't have one and typically don't create a site web page until the site is listed on the NPL.</li> <li>4. He asked about other tools EPA has. I mentioned 319 funds, State funds, and that we will included some of this information in our talk in August.</li> </ol>	
Areas of controversy/difficulty? None, but I imagine he will be at the community meeting in August.
